Report of the Board of Selectmen

The Board of Selectmen organized for the year 1966 as follows:

Milton H. Welt, Chairman of Selectmen
Ralph U. Brett, Chairman of Assessors
Charlotte W. Morey, Chm. of Board of Health & Welfare

1966 was, without any doubt the busiest and most challenging year in the Town's recent history from the stand point of your Board of Selectmen.

Hardly had the 1966 Town Meeting (which marked the choice by the Towns people of Harwich's first lady Selectman) passed into history when a Special Town Meeting was called by petition of many of our citizens to consider the acquisition for conservation purposes of two hundred twenty five acres of land in West Harwich slated for development by Campanelli Builders, Inc. of Braintree.

The acquisition of the land was voted by the Special Town Meeting and the Board entered into negotiation with the owners and were able to effect the purchase. The Town gained State approval under the Community Self-Help Program of the Massachusetts Department of Natural Resources for a 50% reimbursement of the purchase price of $232,500. As this report is written we are assured that a check for $116,250. (50% of the purchase price) will be received early in 1967.

Under the provisions of a new By-law voted at Town Meeting the Selectmen set up procedures for the 1966 season for a new policy of charging a parking fee at four Town beaches which, we believe, worked out well for the Town.

Work on Uncle Venies Road, South Harwich was completed in 1966 with the use of State Bond Issue and Chapter 90 funds. Chapter 90 construction money is being allocated for improvements to Queen Anne Road between Route 124 and Route 39, with a projected starting date of late 1967.

Road layouts accepted by the Town Meeting were recorded for Skipper's Drive, Surrey Lane, Tody Bole Lane, Beriah Brooks Road, and Oak Street, Harwich Center; and Heather Road, Kent Road and Sterling Road, South Harwich.

Land of Robert R. Marshall, Chatham Road, was purchased for the Water Department in accordance with the vote under Article 42 of 1966.

Improvements were made to the entrance of Round Cove, East Harwich. Our new mooring facility at Allen Harbor was improved by the installation of water, lights and a paved parking area.

Contracts were let by the State for the repair of jetties at Allen Harbor and Wychmere Harbor, work to be done in 1967, with matching funds of previous years.

The Selectmen continued to work with the Division of Waterways and the Corps of Army Engineers towards the establishment of the new channel, mooring basin and Marina at Andrews River. Final appropriations were approved in the Congress for the project. A jetty to protect the channel entrance will be constructed in the Spring of 1967 and dredging for the Federal portion of the work is slated for the autumn of 1967.

An order of taking was filed under the instructions of Article 75 of the 1966 Town Meeting and land abutting the Town Landing at Allen Harbor voted to be acquired under Article 61 of the 1965 meeting is now the property of the Town. It will be used for additional parking area.

Improvements were made to the Town Beach at Long Pond, and the launching ramp there was repaired and extended.

Court action regarding the beach at Shore Road, West Harwich is marked for trial in April, 1967.

A new storage building for the use of the Tree Warden, Moth Superintendent, Highway Department and the Selectmen was completed and is in use.

Plans for a suitable memorial to the late Selectman Charles D. Holmes were completed and dedication ceremonies are planned for the Spring of 1967.

Space limitations do not permit a more detailed report than the foregoing. However, the Board has been in session on every business day during the year. We have conferred on many occasions with all Department heads and Committees. We have met with officials of neighboring Towns, State and Federal departments, and have attended and participated in the many meetings necessary in order that we, as your Selectmen, can properly represent the Town and protect and further its interests.

It is a pleasure to again report that we have enjoyed excellent cooperation from all the various Town agencies. Also, the loyalty and devotion of the many of our citizens who spend long hours of tedious, exacting and valuable work for our Town should not go unmentioned. As long as there are people in the community who are willing, as there are in Harwich, to work for and participate in the affairs of our Town as a matter of civic interest and pride, we need have no fear of any erosion of our local self-government.

Respectfully submitted

Report of the Assessors

The revaluation of all real estate was completed and the Assessors set a tax rate of $16.00 based on a total valuation of $78,059,893.00 compared with $64.00 the previous year on a valuation of $20,634,677.50.

The Assessors also voted to process both real estate and personal property tax bills by computer to save hours of typing and retained the Service Bureau Inc., a subsidiary of I.B.M. to do the work.

The combination of revaluation and this new method of processing tax bills necessitated postponing mailing out the bills until late in the year.

In the future our new bills should be processed without difficulty and mailed as usual—early in the year.

The process of valuing real estate for tax purposes is now on a much more equitable and business like basis but requires considerable new detailed work both in the field and in our office that was not previously necessary. We feel it most important that the Appraisal Company be retained to return to do the field work, etc. for valuation of new construction, improvements and additions each year.

Statuatory Tax exemptions were granted as follows:

Elderly Persons (clause 41)	$30,832.28
Veterans (clause 22)	2,688.00
Widows (clause 17)	48.00
Blind Persons (clause 27)	144.00
Hardship (clause 18)	126.72
	$33,839.00

The exemptions allowed elderly persons were liberalized by the General Court increasing the value of Real Estate allowed from $14,000.00 to $20,000.00.

We wish to express our appreciation to the taxpayers of Harwich for their patience and understanding during this year of change.

Respectfully submitted,

RALPH U. BRETT, Chairman

Report of the Board of Health

The Board of Health for the year of 1966 had several problems, all of which the Board, with the able assistance of Mr. Edward Tateosian and Mr. Richard Sturtevant, Barnstable County Sanitarians; Mr. Paul Anderson, Southeastern District Health Engineer and Mr. Frank Heaney, Engineer for Camp, Dresser & McKee, were able to solve.

One of the problems stems from rubbish and garbage allowed to accumulate in yards in various sections of town, causing vermin which spreads to adjacent properties. The Town is fortunate in having a town disposal area which is open seven days a week and must be used for this rubbish and garbage before it is allowed to become a health menace. Another problem is dwellings which have been condemned as unfit for human habitation. Several were razed in 1966 at the request of the Board of Health and Sanitary Inspector, at the owners' expense.

The Board of Health was in charge of the beaches and the contract for cleaning them was awarded to Robert E. Joy, who was the low bidder. Parking attendants were hired for Red River Beach, Bank Street Beach, Earle Road Beach and Pleasant Road Beach. There were two life guards at Red River Beach, one at Bank Street and one at Pleasant Road Beach. It is hoped for the summer season of 1967 to hire one more life guard for the beach at Earle Road. The sale of beach stickers and daily tags amounted to $8,412.00, less refunds of $96.00.

Under Article 124 of the 1966 Annual Town Warrant, the Board of Health advertised, according to a plan, for the construction of Dikes, Drain and Edge Fill at the present disposal area on Lothrop Avenue. Fred W. Crowell was awarded the contract on November 14, 1966, upon his low bid and work is progressing satisfactorily. After several meetings with the State Department of Health and Sanitation in 1966, the Town was given until July 1, 1967 to move from the present disposal area to the new location, which is located on the south side of Queen Anne Road, and which was voted by the townspeople under Article 125 of the 1966 Warrant. The new disposal area will be operated under a "Sanitary Land Fill" program. There will be an article in the 1967 Warrant

calling for a specific sum of money to operate this type of dump.

The usual number of licenses were issued, namely; 31 Common Victuallers, 50 Lodging House, 4 Cleaning Cesspools, 1 Massage & Physiotherapy, 1 Bowling Alley, 2 Manufacture of Frozen Desserts, 1 Nursery School, 2 Bakery, 10 Innholders, 2 Garbage & Rubbish Collection, 2 Junk Collectors, 8 Junk Dealers and 17 Motels or Cabins.

Six premature babies were reported to the Harwich Board of Health during the year of 1966, one of which was aided by the Board. One communicable disease was reported during the year. A clinic was held at the School for pre-school children by Miss Adelyn J. Peabody, School Nurse. The measles vaccine was provided by the State with the local Board of Health purchasing the necessary syringes and medication.

We gratefully appreciate the services of the Barnstable County Health Department; Dr. A. J. D'Elia, our local health officer; Mrs. Georgianna Shatzer, town nurse and Mrs. M. Kathleen Wixon, assistant town nurse. H. Donald Stanford, Building and Sanitary Inspector has been invaluable to the Board of Health on numerous occasions.

To you, the citizens of Harwich, our thanks for your cooperation.

Report of the Finance Committee

The Finance Committee is continuing the policy of monthly meetings the year around started two years ago. We start to increase the number of meetings in the fall until we are meeting almost every night to complete recommendations for publication in February.

This year's annual town meeting with 132 articles and increased budget requests as well as the special town meeting in April required almost 100 meetings of various types so that we could make our recommendations.

We would like to thank the citizens for endorsing approximately 98% of our recommendations as well as expressing our gratitude for the most generous and warm response accorded us in Mr. Ruggles resolve.

We accept with regret the resignation of Marshall Siebenmann Jr. and G. Wilson Smith. We would like to thank them for the many nights of hard work and unselfish service given to the committee.

At the annual town meeting William Dalzell and Douglas Rockwood of West Harwich and John Ladd of Harwich were appointed to the committee.

In March the committee reorganized and re-elected Donn Griffin, chairman and Charles Chamberlain, secretary. In August Mr. Chamberlain resigned as secretary and Mr. Dalzell was elected secretary.

During the year we approved transfers of $10,218.17 from the reserve fund, returning a balance of $1,781.83 to surplus revenue.

We would like to express our appreciation to all town officials and personnel for their cooperation throughout the year.

Report of the Personnel Board

Annual Report — Year 1966

To the Honorable Selectmen and the
Citizens of the Town of Harwich:

The Personnel By-Law has been administered during the year 1966 without any serious difficulty. The routine work consists of classifying employees in jobs and processing discretionary Step-rate merit increases. The Personnel Board does not initiate action for these Step-rate increases and requires that any recommendation for a Step-rate increase be adequately documented. The Board is pleased to report that Department Heads show an increased understanding and acceptance of our procedure in this area. We feel that the Department Heads and the employees are more aware of the fact that meritorious service is required to warrant a Step-rate increase. The required rating of employees as to job performance works to the advantage of both the Town and the employees.

The Personnel Board has maintained its membership and participation in the Massachusetts Municipal Personnel Board Association. On November 1 of each year, we receive the Association's Salary Survey. In our annual salary and wage survey, required by the By-Law, we pay particular attention to towns with a population of 2,500 to 10,000 having Personnel Boards. We especially study towns such as Rockport, Manchester and Williamstown which have seasonal floating populations like that of Harwich. We also take into consideration the collective bargaining settlements in both private industry and government service, as well as the increase in cost of living during the last half of 1966.

As a result of our survey and the general developments in salaries and wages, the Personnel Board has filed an Article for inclusion in the 1967 Town Warrant. This Article proposes, in general, a 5% across the board increase in the present minimums and maximums. It also adds a sixth Step-rate for salaried positions (the hourly rated positions already have a sixth Step-rate). The Step-rate increases for hourly rated employees are to be raised from 5 cents to 6 cents per hour in order to bring the higher Step-rates more in line

with prevailing practice. These changes required an adjustment in all Step-rates so that they average about 3.2%, the national guideline.

It is the view of the Board that if our recommendations are approved by the voters, we should continue to enjoy harmonious relations with the employees. It is desirable that our personnel be treated fairly without the necessity for any initiative on their part. It is also important that our starting rates be such as to permit recruiting of such new qualified employees as may be needed. As a result of our wage, salary and benefit policies, the Town has had a relatively low turnover of its personnel. We believe that the By-Law and policies of the Personnel Board have contributed to attracting and holding high calibre employees who are loyal and conscientious in their service to the Town.

Report of the
Harwich Sewage Study Committee

The Harwich Sewage Study Committee has inserted an Article in the town warrant to borrow money from the Federal Government, interest free, to do a study and a set of plans for town sewage in the congested area of town.

We feel the town should be ready to go ahead with the construction of a sewage system and that the town will be much better prepared with a set of blueprints and specifications.

Report of the Planning Board

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

During the year 1966, the Harwich Planning Board worked in many areas.

1. Five zoning articles were proposed for the 1966 Town Meeting of which three passed. One involved changing the minimum lot sizes in new sub-divisions to 15,000 sq. ft.
2. The Board was deeply involved in the mechanics of protecting the Town's interests as related to a proposed large 400 lot sub-division.
3. We worked with Town officials on the acquisition of 200 acres of conservation land known as the "Herring River Marsh Area".
4. The Board worked in cooperation with the Board of Health in relocating our Town Disposal Area.
5. We were instrumental in the drafting of a new water policy relating to sub-divisions.
6. The Board completely reorganized its filing system. This was made possible by the acquisition of a very capable part-time Secretary. She also makes possible the recording of permanent minutes of all meetings and hearings. This is something we have never had before.
7. The Harwich Planning Board signed a contract with Metcalf and Eddy in February, 1966, which commenced a Master Plan Study. The contract will be completed sometime in late 1967.
8. We held numerous public hearings that dealt with 13 separate subdivisions involving hundreds of building lots. There were also many work sessions involving the Chairman alone or in committee with the entire Board averaging 3-5 hours per week.
9. The Planning Board has provided a member available to the public for two hours every Wednesday morning. This service hopefully will be replaced by such supportive services as the Planning Board Secretary and a Town Engineering Department.

The Harwich Planning Board plans to meet in work sessions dealing with the drafting of the comprehensive planning study at least twice a month until the contract is completed. This will involve executive work sessions, meetings with various Town departments, and numerous public sessions. We urgently request the support of the Citizens of Harwich in attending these meetings in order that you might participate in the Plan's final form.

In cooperation with the Harwich Selectmen and as directed by an article passed at a Special Town Meeting in April, 1966, the Harwich Planning Board has been involved in selecting areas that might be acquired by the Town for conservation, water shed, and recreational uses.

In an independent study, as part of our Master Plan, it has been recommended that the Town acquire about 20% of its available land (or about 2,000 acres) for this purpose. We feel very strongly that if we are fortunate to accomplish this goal, the Town will have taken the best step possible in keeping this area "Cape Cod" in nature. Toward this end we, the Harwich Planning Board and Board of Selectmen will offer a plan in the form of articles at the annual 1967 Town Meeting.

For the 1967 Town Meeting, this Board has submitted four articles dealing with the re-zoning of three separate areas for commercial use. This involved not only locating areas that would be in the best interest of the Town as a whole, but also involved writing extensive land use regulations. This was undertaken to insure the orderly development of these sites and to protect adjacent residential lands.

There is still much work to be done in the area of planning in the Town of Harwich. Such planning problems as locating new commercial areas or re-zoning those that already exist still must be resolved by future Boards. Studies in depth must be undertaken to clarify our complicated Protective By-Laws. Efforts must be renewed to acquire adequate supportive agencies such as an Engineering Department and full-time legal machinery.

As the Town grows, so our problems must also grow. However, by hard cooperative work by all Town Departments and interested Town Committees, we stand a very good chance of resolving most of these difficulties. It will take effort, but it is a challenge we dare not fail to meet.

Expenses for the year are as follows:

Appropriation **Expenses**		$900.00
Supplies	$181.95	
Printing	246.83

Report of the Board of Appeals

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

For the year of 1966, the Harwich Board of Appeals received applications for fifty-two cases, one of which was withdrawn, making a total of fifty-one cases heard and decisions rendered. Of all the cases heard, one was appealed to the Barnstable Superior Court, and the Board of Appeals was over-turned.

Chairman Irwin W. Rohlfs submitted his resignation, which was accepted, and the Board elected Vice-Chairman Haden Greenhalgh its new Chairman, and Biddle R. Thompson Jr. its Vice-Chairman. To fill the vacancy of this resignation, Associate member Howard H. Litchfield was appointed a regular member.

The past year has been one of great advances by the Board, and the Chairman wishes to acknowledge the efforts of the members who have given of their time and insight to accomplish this high standard.

Respectfully submitted,

HADEN GREENHALGH, Chm.

Report of the Gas Inspector

To the Honorable Board of Selectmen and
Citizens of the Town of Harwich:

The trend to the use of natural gas still continues to grow each year. The Buzzards Bay Gas Co. has installed over six miles of gas mains in Harwich this year and more are expected next year. They are also planning to move the booster station located at Herring River on Route #28 closer to the Chatham town line. As more and more people turn to the use of gas, it becomes most important that all installations are checked for proper venting and the proper amount of air is supplied for the operation of these appliances so that the danger of carbon monoxide gas is not present.

Inspections by Gas Inspector	587
Inspections by the Assistant Gas Inspector	14
Investigations of reported gas leaks	32

Gas Permits issued 1966	301
Total Amount Paid to Town Treasurer for 1966	$301.00

A total of 3,800 miles was driven making the above inspections.

Again I would like to thank the Fire Department, the Board of Selectmen and citizens of Harwich for their help and cooperation.

Respectfully submitted,

FRANCIS J. HIBBERT,
Gas Inspector

Report of the Harwich Historical Commission

To the Honorable Board of Selectmen
and to the Citizens of the Town of Harwich

Reappointed to serve on the Historical Commission for the term of three years were:

Mildred B. Paine
Ralph W. Cashen Term expires 1969

The Commission has had four meetings during 1966, all meetings pertained to information obtained from careful research in regard to Brook's Academy.

The Secretary represented the Commission at the meeting of the Finance Committee pertinent to the five year Overlay Plan. A member will also attend the meeting which will be called by the Selectmen to plan for the 275th Anniversary of the incorporation of the Town, and the 125th Anniversary of the building of Brook's Academy.

A meeting with Dr. Hale in his office in the State House, Boston, Mass. proved to be interesting and instructive, but due to circumstances beyond our control negotiations are still pending in regard to making Brook's Academy an Historical Site.

Respectfully submitted,

HELEN R. DRAKE, Chairman
MILDRED B. PAINE, Vice Chairman
ANNE M. NICKERSON, Secretary
ALAN T. HUNT, Legal Advisor

Report of the Planning and Economic Development Commission

This Commission is in its second year of operation, but unfortunately were delayed in securing an Executive Director until December 1, 1966, due to delay in budget approval at Boston, but have met regularly in the afternoon of the last Thursday of each month under the leadership of Chairman, George L. Cross of Barnstable.

With the assistance of Professor Joseph F. Courtney of the Boston University Area Development Center, we have been able to qualify as a recognized authority on regional development planning. This Commission membership consists of the County Commissioners and one active member and an alternate (to act only in the absence of such member) both of whom have been appointed for a term of three years by the Selectmen in each of the fifteen towns in Barnstable County. Roll call at each meeting shows excellent Town Attendance.

A large quantity of valuable information has already been prepared by individual members and small Committees working together, so now our new Executive Director, E. Fletcher Davis, who has access to this data, can be of valuable assistance in an advisory capacity to all our fifteen Towns on local problems as well as regional ones. He has already planned to visit with the Harwich Selectmen and Planning Board. We now have an excellent clearing house to consult with right here on Cape Cod.

Respectfully submitted,

C. W. JOHNSON,
Harwich Representative

Report of the Tree Warden

To the Honorable Board of Selectmen and Citizens
of the Town of Harwich:

Starting out in the Spring with a very small appropriation of only five hundred dollars it was impossible to do any large amount of work on our shade trees.

At a special town meeting on April 21st, it was voted to give the Forestry Department another thousand dollars to be used in removing nine dead trees from over the roadsides, along with the many dead limbs and other necessary tree work.

One large tulip tree on Parallel Street was struck by lightning and damaged severely. This was repaired by Bartlett Tree Experts who were recommended for this kind of work. We have two of these large tulip trees in Harwich and we do not wish to lose them.

Many of our trees were damaged by large trucks breaking off low hanging limbs. One large Maple tree in North Harwich was damaged so badly the whole tree must come down this Spring.

Several of the small trees set out by the town were broken off by small boys who do not know the value of a shade tree.

One Linden tree was removed from the roadside in East Harwich. This was another small tree set out by the taxpayers.

Respectfully submited,

WALTER E. CAHOON,
Tree Warden

Report of the Insect Pest Control

As in previous years the Supervisor arranged for a dormant spray of Elms during the first two weeks in April. This was done by helicopter.

In June a further spraying to protect the Elms from the Elm Leaf Beetle was carried out by a contractor using the town sprayer.

Spraying to kill off poison ivy was carried out in September.

During the Summer the Supervisor answered many calls to assist property owners with various insect pests.

One Elm tested for Dutch Elm Disease was found to be infected and was removed.

The town sprayer was completely overhauled and put in shape for the coming season.

Respectfully submitted,
RALPH U. BRETT,
Local Supervisor

Report of the Animal Inspector

To the Honorable Board of Selectmen
and Citizens of Harwich:

I herewith submit my report as Animal Inspector for the year ending December 31, 1966.

31 dog bites were reported to me during the year. These dogs were quarantined for a period of 10 days, as required by the Massachusetts Department of Agriculture, Division of Livestock Disease Control.

3 dogs died during the period of quarantine and the heads were taken to the Wasserman Laboratories in Jamaica Plain, Massachusetts, for examination.

A survey of horses taken in December 1966 shows there are 19 horses, 10 ponies, and 1 mule in Harwich.

603 miles were covered in carrying out these duties.

I wish to thank the Harwich Police Department and the Harwich Dog Officer for their cooperation during the year.

Respectfully submitted,
H. DONALD STANFORD,
Animal Inspector

This past year has been rather a busy year for this Department and we have had an increase in court appearances. Early this spring we were fortunate in breaking up and prosecuting an extensive ring of Young fellows who were breaking and entering homes and business establishments up and down the Cape. Most of our problem during the winter months is protection of vacant homes and we do advise that

if anyone sees a stranger in the vicinity of these vacant homes to please call up to check.

Accidents continue to plague us most of the year, but we were fortunate in that they were mainly of a minor category. The so-called "No Fix Ticket" system worked very well with a slight increase in the number of tickets issued.

Halloween night was quietly observed this past year and I wish to thank the members of the Finance Committee, Jaycees, Firemen and all others that helped in making this our quietest in years.

I wish to thank the Board of Selectmen, the Heads of the Various Town Departments, the members of the Police Department and the Citizens of the Town for their cooperation during the year.

Respectfully submitted,

JOHN S. RANEO
Chief of Police

Report of the Director of Civil Defense

To the Honorable Board of Selectmen
and to the Citizens of the Town of Harwich

I hereby submit the report of the Department of Civil Defense for the year 1966.

Disaster — is not new to the human race. Fire, flood, hurricane, tornado, earthquake and war have been companions of man through all of history. What was thought of as "survival" is now called "safety" today. Only the form of these dangers have changed, but these hazards are still with us — and can be controlled by action. This action designed for the protection against the effects of major disasters, is called "civil defense". This is not new, but has been a basic concept of our way of life throughout history. It is part of our governing function in the same way as our police and fire protection.

During the past year in cooperation with our Sector Headquarters we have sent volunteers to various schools and have shown films and given talks to various Town organizations. We are planning several schools at present such as the Medical Self Help program. We do hope that our townspeople will avail themselves of this very helpful program.

I wish to thank all of the persons involved in our Civil Defense program who have voluntarily given of their time and efforts to helping us in furthering this program.

Respectfully submitted,

JOHN S. RANEO
Director

Report of the Shellfish Warden

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

Commercial shellfishing has again been good in 1966. The quahaugs and scallops in Pleasant Bay have given the commercial shellfishermen a good return. There has been some commercial fishing in Allen and Wychmere Harbors. 1967 should also be a good year for commercial quahaug and scallop fishermen.

Holders of Resident Permits have also had good shellfishing. The increase in this type of shellfishing creates a need for more transplanting for the use of residents.

In 1967 it is anticipated that parts of Wychmere and Allen Harbors will be replanted with available seed from the deep waters of Round Cove. Also, the transplanting of oysters from Herring River to Round Cove flats.

The soft shell clam season in 1967 will be Sundays only in April and May. This species is still in short supply and needs the protection of a short season.

Records and statistics have been kept as in past years, in cooperation with the Commonwealth's Department of Marine Fisheries.

Please read the rules and regulations on the reverse side of your license and abide by them. They are mainly written for conservation purposes, to assure us of a harvest of shellfish for many years to come.

Statistics

Estimated amount and value of shellfish taken in 1966 Under Family Permits:

Clams	180 bu.	$2,160.00	
Quahaugs	900 bu.	12,600.00	
Oysters	245 bu.	2,940.00	
			$17,700.00

Under Commercial Permits:

Clams	None	
Quahaugs	3,300 bu.	$46,200.00

Oysters	180 bu.	2,160.00	
Scallops	1,180 bu.	9,440.00	
			$57,800.00

Report of the Waterways Study Committee

To the Honorable Board of Selectmen
Harwich, Massachusetts

1966 has been another year of progress in several areas within the scope of Waterways Committee activities.

The new Town Landing at Allen Harbor was completed with berthing space for 11 boats plus service float, black top parking area, lights and water. Because so many users of this facility have experienced docking difficulty because of prevailing cross winds we are recommending that floats for each slip be provided for 1967 as well as electric power outlets to service all boats.

The Andrews River project suffered a set-back as the result of its exclusion from regular 1967 fiscal year Federal funds. However, thanks to the efforts of Congressman Hastings Keith this project was included in a special supplemental appropriation for fiscal 1967. The State Department of Public Works has completed all basic design and engineering including a proposed expanded marina to accomodate 164 boats in slips which will make this project one of the most attractive municipal facilities on the New England coast.

A Town-County-State-Federal conference held in July brought evidence of participation and financial support that should assure project completion within estimated costs although breakwater escrow funds and lightering of spoil out to sea could very well require the Town to provide additional funds. Construction of the new harbor is now scheduled to begin in early 1967 with a 1968 completion date a definite possibility.

We have been assured by the Division of Waterways that the Wychmere Harbor outer breakwater and the jetty at Allen Harbor will be rebuilt in the first half of 1967.

We are confident that 1967 will be a year of real progress on several major projects. We particularly appreciate the cooperation of your honorable Board and of the continuing interest and support of the citizens of Harwich.

Report of the Beach Committee

To the Honorable Board of Selectmen and
Citizens of the Town of Harwich:

During the course of the year 1966 the Beach Committee submitted a new article for consideration by the Town at the Special Town Meeting on April 21, 1966 concerning a change in the Town By-Laws requiring residents to purchase a seasonal sticker for $1.00 for parking at town-owned beaches, and transients to pay $1.00 a day and limiting their use to Red River Beach. After the Article was passed at the Town Meeting the Committee met with the Selectmen to plan for implementation of the regulations.

Although there were a few difficulties in the mechanics of the Parking Regulation, on the whole the Season went exceedingly well for the first year, and resulted in a gross revenue of $8,321.00 with a profit to the Town of $2,596.28 after all wages, printing, signs and booths had been paid for. It is felt that the coming season will bring in higher revenue because some expenses will not recur.

The Committee reviewed the status of Case #45692, Land Court in Equity, Shore Road Beach, West Harwich, Inhabitants of the Town of Harwich versus Keeler et al. The Land Court has scheduled a hearing for said case April 26, 1967.

The following suggestions were made to the Board of Health:

Remove glass and tar chunks from the upper beach at Bank Street Beach.

Widen the boardwalk at Bank Street Beach.

To ask for more trash barrels for Red River Beach and have them put out earlier in the season.

To ask the Highway Department to find some other place for dumping snow cleared from Town streets other than Town Beaches.

To see if Railroad ties could be purchased and placed between parking lot and beach at Red River, Bank Street and Earle Road to keep tar chunks from breaking off into sand areas.

To see if additional sand can be put on several of the Town Beaches either by dredging or trucking it in to make them first-class.

To ask for money to purchase a lot adjacent to parking lot at Uncle Venies Road and Red River Beach.

To ask for funds to extend the parking lot approximately 100 feet into Bank Street Beach where more parking is greatly needed.

To ask for permanently placed benches at the four larger beaches so older residents could sit and watch beach activities.

Annual Report of the Playground and Recreation Commission

In its seventeenth annual report to the Town, the Playground and Recreation Commission outlines in brief, the summation of an expanded program for the year 1966. Although our total number of individuals dropped when several activities outgrew the space in the Recreation Building and moved on to larger quarters, the traffic continues to be fairly heavy. 11,293 people have been logged in the office during the past year.

The Summer Sports program expanded in attendance and participation under the direction of Paul Boire and our four most able Red Cross Swimming instructors: "Kal" Wynot, Betty Callahan, Irene Packard and Jeanne Woods. Enrolled at Sand Pond were 277 boys and girls at the varying levels and at one time during the summer there were 158 beginners. Aquatic activities continue to receive "top billing" in our program.

The morning recreation program at Brooks Park and the High School Gym drew over 250 boys and girls with an average attendance of 75 daily. Ribbons, trophies and Alonzo Stagg medals were awarded for special events at the Annual Field Day held on August 19. 105 certificates were issued for swimming achievements in the numerous classifications, including 10 Junior-Senior Lifesaving awards.

It was evident from the beach count of sand-sitters and enthusiastic swimmers that the new extended beach and dock-facilities were used and appreciated. On the public beach, which is that beyond the instruction area, between 300 and 400 individuals have been counted on many occasions. The safety of these visitors, many of them children alone, warrants the presence of a LIFE-GUARD. This does not lie within the scope of the recreation program. The new COMFORT STATION, requested this year and long overdue, is a MUST for 1967.

SAILING is an integral part of any comprehensive recreation program in this community. More than forty enthusiasts of varying ages enrolled last summer and used the two rented sailfish. However, the increased demand for craft-space makes the purchase of two or more sailfish an economic necessity.

The recently black-topped area west of the Recreation Building will, when completed, serve as a multi-purpose court for basketball under lights, an all-season playground, skating rink and parking lot when not otherwise in use.

The Commission has reluctantly postponed the request for two additional TENNIS COURTS. Combined summer and year-round figures emphasize the need for more, as evaluated by the recommended standard of one court per 2,000 population. It is pointed out that the existing facilities for this most popular sport have long been outgrown.

Although the Harwich Junior Theatre has been occupying its own home for two years, additional rehearsal space is in demand at the Recreation Building all summer while the costume department overflows on the second floor. The Creative Arts and Drama Workshops are sponsored by the Commission.

Furniture Refinishing has entered its sixth year with increasing popularity, instructed by Wendell Bassett, Recreation Assistant.

In May 1966, the New England District Recreation Conference sponsored by the National Recreation and Park Association was held at the Hotel Belmont. Your recreation commission was invited to attend and participate in the four day conference which proved to be well worthwhile. Through pooling the resources of six national agencies in the field, both volunteer and professional leaders unite to give the best thinking, expertise and resources possible.

In October, the Recreation Commission joined the other Lower Cape Commissions in a conference sponsored by the Orleans Recreation Group. The timely subject "ADVISABILITY OF COMBINING RECREATION AND PARK COMMISSIONS" was presented by Dan Serpico, the Barnstable Chairman.

Pointed out, by the experts in the preliminary review of our community facilities and studies for the HARWICH COMPREHENSIVE PLAN, is the basic need for coordinated planning. It is emphasized that all agencies, town departments and individuals concerned should work together in Harwich on a general plan. The Recreation Commission has long realized this need for cooperation and an adequate system of recreation and conservation facilities.

Seasonal resort industry and our year-round population needs are based on acquisition and positive action. Our guide-

lines are substantially in agreement with the recommendation of the National Recreation and Park Association.

It follows — that a resourceful administrator, a competent personable leader, the ALL YEAR ROUND RECREATION DIRECTOR is again our NO. 1 GOAL . . . and we urge your loyal support.

Report of the Park Department

To the Citizens of the Town of Harwich:

Due to the unfortunate illness of the Chairman, John H. Woodruff, the remaining members being new to the job were at a disadvantage in carrying out their duties.

The Exchange Park was taken over and Article 83, 1966, for putting in a walk and fence was carried out.

It is our hope that a capable man can be found to act as foreman with his duties covering the period from April through October 31.

Respectfully submitted,

BRENTON I. WIXON
WALTER E. CAHOON

Report of the Conservation Commission

To the Honorable Board of Selectmen
and the Voters of Harwich:

Your Conservation Commission is happy to report that 1966 was a banner year for conservation in our town.

Through the responsibility and generosity of Harwich voters, the Town was able to acquire the Herring River Estates area and save a unique natural beauty spot from destruction.

Also, the State has assured us of fifty per cent reimbursement so that we shall receive from them the sum of $116,000 as their share in the purchase, under the State Self-Help Plan to Conservation Commissioners.

However, the battle for open space is not yet won. We urge every voter to give the most careful consideration to the land acquisition article which the selectmen will sponsor in this year's Warrant.

The time for the Town to act in regard to the wisest possible use of our land and for us, as a Town, to strike the proper balance between development and open space is **now.**

Respectfully submitted,

ERIC A. FARHAM, Chairman
Conservation Commission

Report of the Wire Inspector

The following inspections were made for additions to present wiring, three wire services to replace old two wire systems, off peak hot water, new homes and contractors services in the Town of Harwich for the year ending December 31, 1966.

All electrical work in new additions and buildings require two inspections, one roughing in and the final when the service is completed and ready for connection to the poles

on the street. Where there is any question as to the code requirements we meet on the job with the electricians. For construction purposes out of the total there were 69 temporary services.

All new installations for homes require a 100 amp service.

Report of Town Counsel

Board of Selectmen
Town of Harwich
Harwich, Massachusetts

Gentlemen:

I am pleased to submit the following report concerning the legal activities of the Town.

During the past year, the Legal Department has submitted thirty-five opinions to six different departments of the Town covering numerous phases of municipal law. In the Barnstable County Superior Court, four cases involving the Board of Appeals were tried and disposed of in 1966. In the Land Court of Boston one case was settled, and there is presently pending the Shore Road Beach property matter which has been assigned for trial in April of 1967. Changes in welfare legislation have been the cause of three separate suits against the Town for hospital costs incurred by Town residents.

Land acquisition by the Town for conservation purposes for parking and for other municipal purposes has occasioned extensive work in title examination, contracts, drafting and land takings. The reassessment program of the Town has caused some persons to file tax appeals but, in view of the large numbers of properties that were reassessed, the number of appeals is negligible.

The continuing cooperation of the department heads and members of the various boards has been helpful in concluding many matters in a manner that has been most beneficial to the Town.

Respectfully submitted,

ELLIOTT K. SLADE, JR.
Town Counsel

Report of the Veterans' Agent

It is my sincere hope that during the coming year more veterans will take advantage of the Educational Assistance law which the President signed March 3, 1966. Generally, any honorably discharged veteran who has been on active duty for at least 181 days since January 31, 1955, is eligible.

What is not generally known is that the law provides financial assistance even when a veteran elects a course or courses through an approved correspondence school, such as ICS and others.

This feature of the law makes it possible for many veterans, now employed, to improve their education and through that their income. This is a valuable benefit and it is my hope that it will be much more widely used. Information regarding payments to the veteran, whether a school is approved, or whether a certain course is approved may be readily obtained by writing directly to Veterans Administration Regional Office, Federal Building, Kennedy Plaza, Providence, R. I.

Respectfully submitted,
FRANCIS P. BURLING,
Veterans' Agent

Report of the Dog Officer

To the Selectmen and the People of the
Town of Harwich:

From January 1, 1966 through December 31, 1966, I have travelled 779 miles in response to 164 complaints. Also more than 340 complaints and inquiries have been satisfied by telephone.

If all dogs in the Town of Harwich were licensed at the required time, it would aid in the prompt return of lost dogs. Dogs picked up without a license tag are sent to the Animal Rescue League in Provincetown.

I wish to extend my sincere thanks to the Harwich Police Department for their understanding and cooperation.

Respectfully submitted,
FAYE R. OWENS,
Dog Officer

During 1966 the department received its new pumper, and new ambulance. These two pieces of equipment were badly needed, and since being put in service have proven their value after another busy year.

I have put in effect a new program of building inspection and, it has been warmly received. I believe these inspections will eliminate a number of hazards that exist in our mercantile areas. I hope all will cooperate to make this program successful.

The drill instructors are doing their fine job in the training of our firefighters. I honestly believe we have one of the finest trained group of firefighters in this area.

All equipment is in excellent condition at this time, but we must continue to replace the older equipment. Very soon we must consider appropriating a large sum of money to replace the 1948 ladder truck. This truck should be replaced with a modern aerial type vehicle.

I wish to thank all the men of the department for their cooperation and donation of time during the last year; to members and Chiefs of other Towns, and to the Citizens of Harwich for their cooperation.

Respectfully submitted,

CHARLES A. HALL
Chief of Department

Report of the Water Department

To the Citizens of the Town of Harwich:

Herewith we submit for your approval the thirtieth Annual Report of the Harwich Water Department for the year ending December 31, 1966.

Departmental records reveal that this past year has been a banner year for your Water Department. Receipts increased to a high of $160,414.54 with 218 domestic services installed. Many of these services were the product of installations of water mains on Town Accepted Roads where the Board of Water Commissioners felt the most revenue would result. Activity in land development was normal through the year with Contractors applying for the usual water extensions in their sub-divisions. All developers, incidentally, are required to defray the cost of the needs of their projects and computations at the end of the year show the total cost of labor plus materials involved amounted to $25,981.78.

A recommendation for a by-law relating to the Board's determining the size of water pipe mains used in private developments was submitted by the Planning Board for consideration. Varied opinions on the issue resulted and it was ultimately decided to consult with our engineers, Whitman & Howard. Their reply was that there existed no common rule of thumb formula in resolving pipe sizes in sub-divisions. However, it has been the policy of our department to study in depth each sub-division plan in regard to flows and pressures emanating from connecting lines before a decision is made pertaining to pipe sizes. If the developer is agreeable to the Board's judgment, materials, for which he makes payment in advance, are ordered by the Water Department and the installations are performed under our supervision. This method has proven most satisfactory to all concerned.

With the continuous yearly expansion of this department, we wish to alert the townspeople of the vital need of an additional water supply, storage facilities and a feeder main from the sub-stations into the Harwich Port area where the demand is greatest. On thirteen (13) consecutive days in July, the Elevated Tank on Route 28 was empty by early afternoon and not until the very late evening did the tank commence to fill. Because of the extremely dry season and prolonged sprinkling of lawns, this posed a serious problem.

Providing this condition had continued, it would have been necessary to impose restrictions on the use of water. Although funds had been requested at the Annual Town Meeting to install a larger feeder main from the sub-stations to Bank Street via Oliver Snow Road, Gorham Road and Hoyt Road at a cost of $148,000, the article did not meet with voter approval. If the appropriation had been forthcoming, this project could have been completed early in 1966 averting the danger of an empty tank plus a threat to fire protection within the Town. We are once again requesting funds for the above-mentioned project in addition to a gravel packed well and pumping equipment to be installed in the East Harwich area. Tests in 1955 were conducted in this location with an estimated yield of 500 gallons of water per minute and acceptance of the site was received by the State Department of Public Health. Although our article may meet with favorable reaction at the 1967 Town Meeting, this well can not be put into operation before 1968.

On May 2 of this year, bids were opened for further well testing and the Contract was awarded John J. Boyle of Milton, the low bidder. Preliminary tests were conducted under the supervision of Whitman & Howard, Engineers, who have since reported that a good yield of water could be obtained from these various sites. We are requesting funds in this year's Warrant to continue Well Testing in order to meet the requirements of the State Department of Public Health before any land can be obtained. Another article is being submitted by the Commission for monies to survey and negotiate with property owners for future acquisition of land. This past year the Town purchased a parcel of land from Robert Marshall which abuts our property and bounds have been set and it is now a part of the water shed.

During the year an application for a Planning Advance in the amount of $24,000 was filed with the Department of Housing and Urban Development, a Federal Agency set up to assist in enabling communities to construct adequate water and sewerage facilities and promote efficient expansion and development. A communication was received late in the year from this agency stating that the demand for planning funds is in excess of the authorized program level for the fiscal year of 1967 and it is now uncertain when our application will be approved.

A State Plumbing Code went into effect this year whereby only registered plumbers were allowed to install water pipes from the streetline into private properties. As this de-

partment has been making these service connections since its establishment in 1936, we applied for a variance which was granted from the State Department of Examiners and Plumbers with the proviso that our completed work will be inspected by a registered plumber.

An additional pipelayer was employed by the Department in April to assist in accelerating the installation of domestic services and, also, to aid in the completion of maintenance work that has been neglected through lack of sufficient help.

Competitive bidding was held late in March for the customary water works materials and contracts were awarded the low bidders. Also, truck bids were opened in April and a ¾ ton International with utility type body was purchased. We might add that among our inventory of needs for the coming year are two Water Department vehicles. A 1959 one (1) ton truck and a 1961 Ranch Wagon will be traded as these vehicles have consistently been garaged because of mechanical breakdowns and are proving costly to retain.

Our two-way Radio System, the last article to be completed of the several water articles voted favorably at the Town Meeting, was not put into official service until November 9 as there was some delay in obtaining the F.C.C. licenses. In the two short months these units have been in operation, they have been very helpful to the department.

Under Capital Outlay, there will be a request for a sum of money to spot paint the Standpipe at Brooks Park. This tank was painted during the Fall of 1963 and is in good condition, however, due to vandalism approximately 100′ of the bottom section was badly bruised as well as other areas and should have attention to preserve it.

The Commission held twenty-eight (28) meetings at the Water Department office through the year to transact departmental business. Also, numerous meetings have been held with the Planning Board, Finance Committee and Selectmen for the purpose of making plans for the improvement of the Water System. It was suggested by the Commission at one of these meetings that requests for water main extensions should be filed with the Water Department before November 15 to allow us appropriate time to investigate each project and gather the necessary information.

We regret that it was necessary for Robert J. Chase, who has been a Commissioner since 1960, to tender his resignation effective December 31, 1966 due to the conflict of interest

statute. We will miss him exceedingly as he has been faithful in his attendance and an asset to the department.

In closing, we wish to express our appreciation to all who have assisted us during this past year and to our employees for a job well done, many thanks.

Brooks Free Library Trustees' Report

The Board of Library Trustees held six regular meetings and four special meetings during the past year. Members also attended seminars at Simmons School of Library Science and the Massachusetts Library Association, as well as meetings of the Cape Cod Library Club. The Librarian took a special course in book selection for children.

A new Assistant Librarian, Mrs. Marianne Ladd, and two new pages, Martha Cornwell and Sandra Adamson, were added to our staff.

During Book Week, the Library sponsored a competition among high school art students to design a memorial gift bookplate. Certificates for the purchase of books were awarded first and second place winners.

Three Rogers groups and one frame cast by the artist were added to the Rogers collection. This collection continues to attract interested visitors, and it is hoped in time to be able to display the statues on the ground floor level when the facilities of Brooks Library are expanded.

By vote of the 1966 annual Town Meeting, the Trustees were directed to have preliminary plans drawn up for extension of library facilities. As groundwork, all Trustees visited libraries both on and off Cape Cod to note features of design, location, space, circulation, and construction which might fit our needs. Mr. Earle Kempton, A.I.A., was then chosen to draw plans. These plans are now almost complete but await action until after removal of the Second District Court and further direction by a future Town Meeting. At a special Town Meeting in April, the old Telephone Exchange, so-called, was acquired by the Town "for library and historical purposes." The Trustees now seek, by article in the 1967 Town Meeting warrant, to have jurisdiction of this building transferred to them. We plan, by using the two adjacent buildings together, to provide up-to-date and commodious library space and shelves for a minimum of 36,000 volumes. Based on these plans, a tentative capital improvement cost was submitted to the Finance Committee.

In April, the Board supported, by letter to our Senator and Congressman, the extension of the soon-to-expire Library Services and Construction Act, which act has benefited many small town libraries. The extension was passed by the Congress. The Board hopes that Brooks Library will qualify under this Act for Federal construction aid.

Attempting also to update the policies of the Library, the Trustees and the Librarian conducted their own "Do-It-Yourself-Survey" by reviewing our by-laws, statement of objectives, book selection policy, gift book policy, extension of library services (in this regard, service was offered to shut-ins and rest home patients), and duties of trustees. These amended statements were affirmed as rules of government of Brooks Free Library.

An otherwise creditable year was marred irreparably by the loss by death of our beloved friend and staff member, Elizabeth Sims Cahoon. Our Library, which is, as is any worthy library, more than a collection of written words, was enriched by her association with it.

One other, though fortunately lesser loss will be felt in the future by the retirement of our long-time member and chairman, Hillary M. LeClaire. Mr. LeClaire has served our Library dependably, imaginatively, and practically since 1931. The staff and his co-trustees salute this service and know his interest and help will continue to support Brooks Library.

Please refer to the Librarian's report, which follows this report, for a more detailed account of library services.

Librarian's Report

The past year has been a most satisfactory one with an increase in circulation commensurate with the registration of new patrons.

We added many more books in 1966 than we did during the previous year as we were the recipients of some excellent gift records and books. These included a fine group of memorial books, a collection of children's books from the Harwich Junior Woman's Club, a 20 volume Encyclopedia of Photography, and a great number of individual gift books. We were also eligible to participate in the Book Collection Improvement Grant of the Federal Government. The Grant was specified for the purchase of reference books and with the ever increasing cost of books, this was most welcome.

Again, increasing costs of printed library materials as well as space problems has prompted the purchase of a larger number of paperbacks. These help to fulfill the requests that are so augmented during the summer season of reading lists.

Pre-School story hours, elementary class visits to the library and the loan of collections of children's books for classroom use have served to keep the juvenile circulation moving upwards.

Brooks Free Library can boast of an excellent backfile of magazines, and these are much explored by students of all ages for reference and background material.

As of Dec. 31, 1966, the number of books in the library included 10,672 adult books, 3,507 juvenile titles for a total of 14,179.

Circulation of library materials during 1966 is as follows:

Adult	22,764
Juvenile	12,208
Magazines	2,260
Pamphlets	501
Records	1,107
	38,840

Report of the Highway Surveyor

To the Honorable Board of Selectmen
and Citizens of the Town of Harwich:

The following is the report of the Highway Department for the year 1966.

Your Highway Department has had its usual quota of work this year and hope that it has been satisfactorily accomplished. This being the intentions of the men working on our highways we have:

Rebuilt and resurfaced approximately five and a half miles of road

Oiled and resurfaced approximately nine miles of road
Installed twelve filter beds
Installed ten catch basins
Installed approximately two-hundred sixty feet of drainage pipe

In addition to the usual amount of repairing and maintenance work; we have also completely rebuilt North Road Bridge, Kelley Street Bridge and partially rebuilt Bells Neck Road Bridge.

As I am looking forward to the betterment of the Town, it is my aim to give to the people of Harwich the quickest, most efficient and economical services possible. Therefore, it is most important that the citizens of Harwich vote for the articles that I have requested in the Warrant for 1967.

As this being my second term to serve the citizens of the Town of Harwich as their Highway Surveyor, may I express my sincere gratitude for the confidence and trust that they so readily gave to me in the elections of March, 1961 and March, 1964.

On our coming election (March 6, 1967) if elected, I would be more than grateful to accept the responsibilities that this office requires.

At this time I wish to thank the Board of Selectmen, the Town Accountant, all Town Departments and the Highway personnel for the cooperation I have received during the year.

I also want to express my gratitude to all citizens of the Town for their fine support and cooperation.

Respectfully submitted,

CHARLES C. MUNROE
Surveyor of Highways

Report of the Cemetery Commissioners

To the Citizens of the Town of Harwich:

Another year has passed, and with it, many hours of industrious labor spent in our cemeteries. They look nicer than ever. How rewarding are the many compliments received by this board for all that was accomplished. This praise we must pass on to our employees who worked so diligently and long to get the job done. Let us enumerate.

SOUTH HARWICH: Fence rails were painted and bent rails straightened. Head stones and markers were cleaned and those broken or damaged were repaired. Sunken graves were filled and re-seeded and all shrubbery fertilized. The entire cemetery was limed.

WEST HARWICH: Wooden fence rails were repaired and painted, iron pipe fences painted. Stones and markers were cleaned, all shrubbery fertilized, and the grass limed.

NORTH HARWICH: (East half) Fence rails straightened and painted, markers and stones cleaned, grass limed.

KELLY ST.: Stones and markers were cleaned, shrubbery fertilized, fence posts straightened, and grass limed.

LOTHROP AVE.: Posts straightened and painted and area landscaped.

BELL'S NECK: One post replaced, all posts painted and area cleaned.

RYDER—ROUTE 39: Cleaned & raked, bush fertilized and grass limed.

HARDING—QUEEN ANNE ROAD: Cleaned and raked and grass limed.

OLD METHODIST CHURCH—EAST HARWICH: Fence rails painted, shrubbery fertilized, sunken graves filled and reseeded, stones and markers cleaned and grass limed.

END-OF-THE-POND: Area cleaned, fence posts painted and dead branches carted away.

CONGREGATIONAL CHURCH — HARWICH CENTER: Evergreen trees trimmed, shrubbery fertilized, fence painted, grass limed and sunken grave filled and re-seeded.

ISLAND POND: Stones and markers were cleaned, broken or damaged stones repaired, shrubbery fertilized, trees and shrubbery pruned and dead branches removed. All grass was limed, bulbs replaced in triangular garden and two side approach gardens and soil limed and fertilized, two additional sections of roadway black-topped, largest wash-outs filled with cold-patch, a culvert was constructed on Oak Ave., concrete steps and flagstone walk were constructed from Harwich Ave. down to the scenic pond. Last, but by no means least, a self-contained water sprinkler system was installed with three outlets; one on Pond Ave., one on Central Ave., and the third on First Ave. allowing any part of the grass area in the cemetery to be watered when the season is unusually dry. There is an ample supply of fresh water even in a drought such as some sections felt last year.

As a matter of interest, there are at least thirty different varieties of trees and shrubbery in Island Pond Cemetery alone, some quite rare, and all of real beauty at the height of their bloom.

All cemeteries are policed at least once a week, and during the summer season two must be checked more frequently to remove debris left by some thoughtless person or persons. All grass lots are mowed at least twelve times during the year. The cemeteries with pineneedle areas do not require so much attention. We are proud of the appearance of our cemeteries and we hope the voters in our town will permit us to continue to give them the care respect commands.

We thank you for your support for our budget for 1966 and sincerely hope you will grant us the same amount for the year 1967.

Respectfully submitted,

JOHN R. S. HANDREN

Report of Golf Study Committee

Pursuant to the passage of Article 115 of the 1965 Town Warrant, and acting upon the instructions therein, the Selectmen appointed five qualified voters to a committee to compile facts, figures and information pertinent to the construction of a Municipal Golf Course in the Town of Harwich, and to report their findings to the Town.

This Committee has met many times as a Committee or in groups, and has consulted with the Selectmen and other Town officials and committees, State officials, other Towns operating Municipal Golf Courses, experienced golf course architects and the regional representative of the National Golf Foundation. Consultations with Mr. Geoffrey Cornish and Mr. Henry Mitchell, golf architects of Springfield and Dennis respectively, were very helpful. Mr. Mitchell prepared several preliminary sketches of tentative course layouts suggesting the best use of the natural assets of the proposed site and leaving the choicest adjacent properties for residential development around the perimeter.

Studies and consultations provided ample evidence that despite the sharp upturn in golf's popularity, the ratio of golf courses to population has declined, both nationally and within our own 10 mile radius. In this area, the capacity of golf courses has increased only 44.4% in 15 years while the population in the same area has added 73% and the number of golfers is up 141%. These basic facts probably account for the immediate success of both the Blue Rock and Dennis Pines courses while the revenues of older courses continued to climb.

The Bass River course in Yarmouth has a gross revenue averaging close to $100,000. each year for the last four years. The Dennis Pines course reached the same level in its first full year. An eighteen hole course in Harwich may be expected to produce a gross revenue of a million dollars in the first

ten years, with an annual cost of maintenance and operation of around $70,000. By any standard of estimate, this project will not only be self-liquidating and self-supporting but provide an operating surplus for further recreational development.

In choosing the site recommended, eight possible locations were considered and judged against a list of 15 factors compiled for the purpose after consulting with the Planning Board, the Selectmen, golf architects, the "Blair Report" and the manual of the National Golf Foundation. The map prepared and submitted to the Selectmen, showing the desired land, takes into account all of these factors.

While accurate costs cannot be determined until specifications are prepared and bids received, the Committee has been able to study and analyze the costs of other recently completed municipal courses costing from $156,000. (Monmouth, Ill., 1966) to $370,000. (Dennis, Mass., 1965). We are satisfied that with diligent supervision the essential construction and equipment cost can be held to $300,000. At our request, State Representative Stephen Weekes has filed enabling legislation permitting the Town of Harwich to borrow funds up to this amount for the purpose.

The Committee recommends the construction of an 18 hole golf course, with work to start as soon as boundaries of the land acquired can be determined. It is further recommended that the construction of a suitable clubhouse and other desirable features be deferred until revenues or the reimbursement of State/Federal funds are available for the purpose. This postponement is recommended in order to better assess the appropriate scope of such facilities in the light of operating experience, and to hold borrowing to the minimum.

In the opinion of this Committee, the proposed Municipal Golf Course will be a tremendous asset to the Town. It would raise the prestige of the Town and bring added revenues through increased property valuations in the surrounding areas, increased vacation business, and extend the vacation season. Since most of the costs of operation are in payrolls, this facility will add to steady employment and to the local economy.

We extend our appreciation to the many people who have offered their assistance and encouragement, and who have cooperated in the accumulation of pertinent information.

In closing this report, we wish to emphasize this is one action the Town will be asked to take in the Town Meeting which can be expected to pay for itself and continue through the balance of its life to pay a profit in cash to the Town.

Respectfully submitted,

Report of the State Audit

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Bureau of Accounts

100 Cambridge Street, Boston 02202

January 17, 1967

Board of Selectmen
Harwich
Massachusetts

Gentlemen:

This is to certify that the books and accounts of the town of Harwich were audited by the Bureau of Accounts, Department of Corporations and Taxation, as of September 7, 1966, at which time they were found to be correct with all funds properly accounted for.

A detailed report of the audit will be forwarded as soon as possible.

The detailed audit report will contain recommendations that the town treasurer institute foreclosure proceedings on the old tax titles and that an annual bond be furnished for the water superintendent in an amount that is more commensurate with the collections.

Very truly yours,

WILLIAM SCHWARTZ
Assistant Chief of Bureau

Report of the Town Accountant

The Board of Selectmen
Town of Harwich, Massachusetts

Gentlemen:

In accordance with Section 61 of Chapter 41, General Laws of the State, I present herewith the following reports for the year ended December 31, 1966.

Receipts for the year
Detail of Appropriations and Expenditures
Town Balance Sheet as of December 31, 1966
Statement of Town Debt
Trust Funds

I sincerely wish to thank the Selectmen, Department heads, Town Employees and Mrs. Grace L. Hurst, my assistant-Secretary for their help and co-operation during the year. I also wish to thank Mr. Norman T. Worgan, who resigned as Town Accountant in April, for leaving me such a fine system of records and books.

Respectfully submitted,

MURRAY E. BRITTON
Town Accountant

The following By-Laws were voted at the 1966 Annual Town Meeting and approved by the Attorney General on April 27, 1966 and were advertised in the Cape Cod Standard-Times on May 9, 10, and 11, 1966:

Article 96. To see if the Town will vote to amend the By-Laws of the Town of Harwich by adding a new section under Article VIII—General Provisions:

Section 2. All elective and appointed officers shall surrender and pay to the Town Treasury, all fees received by them by virtue of their office and to act fully thereon.

Motion: To accept and adopt.
Action: So voted unanimously.

Article 98. To see if the Town will vote to amend the protective by-law of the Town of Harwich in the following manner: By inserting in Section one, Establishment of Districts, under paragraph I, and after number three, the Red River Conservation Area, the following:

4. The Herring Brook Conservation Area:

On the south by Great Western Road; on the West by Depot Street; on the east by Bells Neck Road; on the north by Chatham Road; then from the Herring Brook northeasterly to Hinckley's Pond extending two hundred feet (200) on either side from the center of the brook and bounded on the south by Chatham Road and to act fully thereon.

Motion: To accept and adopt.
Action: So voted unanimously.

Article 99. To see if the Town will vote to amend the Protective By-Law, Section 2, Use Regulations, to read as follows:

1. In Commercial Districts, buildings, structures and premises may be used for any lawful business, service, or public utility, except junk yards, second hand machinery or equipment yard storage, except that the businesses listed and described below are subject to approval of the Board of Appeals. In addition, any use permitted in the Residential and Agricultural Districts is also permitted in the Commercial Districts.

Business which may be located in Commercial Districts subject to approval of the Board of Appeals, shall be commercial outdoor amusement or recreation, including but not limited to archery ranges, trampolines, go-kart tracks, fairs, carnivals, and open-air musical or theatrical entertainment. In acting upon an application for approval of a commercial outdoor amusement or recreation use, the Board of Appeals shall take into consideration: the adequacy of the site for the particular use; the probable effect of the proposed use upon adjoining properties and upon the neighborhood; hazards to vehicular and pedestrian traffic; the specific design proposed by the applicant; and especially the amount of noise, glare and congestion which may be expected to result from the operation of the proposed business. The Board of Appeals shall also impose such conditions upon the applicant as it finds reasonably appropriate to protect neighboring properties and the general public, including but not limited to: front or side yards greater than the minimum required by this By-Law; screening, buffer or planting strip, fences or walls; limitations upon the area of occupancy or number of occupants, and the method and time of operation; specification of the number and location of driveways and access streets; and specification of the area needed for off-street parking.

Not more than one (1) sign, other than those which are attached to and are part of the architectural design of a building or structure, shall be permitted on each of these premises, and to act fully thereon. By request of the Planning Board.

Note: Dwellings including private garages may be constructed in Commercial Districts but must be in accordance with all rules required under dwelling construction, location and lot size.

Motion: To accept and adopt.

Action: So voted unanimously.

Article 101. To see if the Town will vote to amend the Protective By-Law, Section 3, General (d), first paragraph to read as follows:

Any dwelling hereafter erected shall be located on a lot containing not less than fifteen thousand (15,000) square feet, with the exception that where less than thirty thousand (30,000) square feet is available under the same owner it can be split into two lots, if and only if, one of the new lots contains at least ten thousand (10,000) square feet and the other new lot contains at least fifteen thousand (15,000) square feet.

Second paragraph, first sentence, delete the word "subdivision" and to act fully thereon.

Motion: To accept and adopt.

Action: So voted by standing vote. Yes: 234; No: 12, a 2/3 vote being necessary.

Article 102. To see if the Town will vote to amend the first sentence and Section 1 of paragraph i, Section 3, General of the Protective By-Law as follows: In the first sentence, after the word "motels", add the words "hotels and apartment buildings," followed by a comma. In paragraph (i) Sections 1 through 8, wherever the word "motel" appears, it is to be replaced with the words: "motel, hotel or apartment building", and to act fully thereon.

Motion: To accept and adopt, as amended.

Action: So voted by standing vote. Yes 228; No 7.

Article 104. To see if the Town will vote to amend the Building and Fire Prevention By-Law of the Town of Harwich in the following manner: By adding after Section 9, Footings 8, a new paragraph to read as follows: (9) All footings shall have side forms, and to add after Section 14 a new section 15 to read as follows:

Section 15. Garages: Basement garages: wall and ceilings to be covered with fire proof material. Doors connecting garage with basement to be covered with fire proof material on garage side, and be self closing. Doors connecting garage to dwelling shall be covered on garage side with fire resistant material. No wooden floors to be used in garage.
and to act fully thereon.

Motion: To accept and adopt.

Action: So voted unanimously.

Article 105. To see if the Town will vote to amend the By-Laws by adding the following new sections:

(A) It shall be unlawful for any person or persons occupying or having charge of any building or premises or any part thereof in the Town, other than that section of any establishment licensed under Chapter 138 of the General Laws, at any time to cause or suffer or allow any unnecessary, loud, excessive or unusual noises in the operatin of any radio, phonograph or other mechanical sound making device or instrument, or reproducing device or instrument, or in the playing of any band, orchestra, musician or group of musicians, or in the use of any device to amplify the aforesaid, or the making of loud outcries, exclamations or other loud or boisterous noises or loud and boisterous singing by any person

or group of persons or in the use of any device to amplify the aforesaid noise, where the noise is plainly audible at a distance of one hundred and fifty feet from the building, structure, vehicle or premises in which or from which it is produced. The fact that the noise is plainly audible at a distance of one hundred and fifty feet from the vehicle or premises from which it originates shall constitute Prima Facie evidence of a violation of this By-Law. Any person violating this by-law shall be punished by a fine of not more than fifty ($50.00) dollars for each offense.

(B) It shall be unlawful for any person or persons being present in or about any building, dwelling, premises, shelter, boat or conveyance or any part thereof, other than that section of any establishment licensed under Chapter 138 of the General Laws, who shall cause or suffer or countenance any unnecessary, loud, excessive or unusual noises, including any unnecessary, loud, excessive or unusual noises in the operation of any radio, phonograph or other mechanical sound making device or instrument, or reproducing device or instrument, or in the playing of any band, orchestra, musician, or group of musicians, or the making of loud outcries, exclamations or other loud or boisterous noises or loud and boisterous singing by any person or group of persons, or in the use of any device to amplify the aforesaid noise, where the aforesaid noise is plainly audible at a distance one hundred and fifty feet from the building, dwelling, premises, shelter, boat or conveyance in which or from which it is produced. The fact that the noise is plainly audible at a distance of one hundred fifty feet from the premises from which it originates shall constitute Prima Facie evidence of a violation of this by-law. Any person shall be deemed in violation of this by-law, who shall make, or aid and abet, or cause, or suffer, or countenance, or assist in the making of the aforesaid and described improper noises, disturbance, breach of the peace or a diversion tending to a breach of the peace, and the presence of any person or persons in or about the building, dwelling, premises, shelter, boat or conveyance or any part thereof during a violation of this By-Law shall constitute Prima Facie evidence that they are a countenancer to such violation. Any person violating this by-law shall be punished by a fine of not more than fifty ($50.00) dollars for each offense and to act fully thereon.

Motion: To accept and adopt.

Action: So voted by standing vote. Yes 211; No. 24 (a 2/3 vote being necessary).

Article 107. To see if the Town will vote to amend the By-Laws by adopting the following:

LAUNCHING AND BEACHING OF "BOARD BOATS"

1. Definition of "Board Boats": A small sailing boat customarily transported on car-top carriers to and from the water, light enough to be carried and launched by one, two or three persons.
2. It shall be unlawful for any person to launch or beach "Board Boats" at any town owned location within the Town except at areas designated and posted by the Board of Selectmen.
3. Any person found violating this By-Law shall be subject to arrest, and any person convicted of this offense shall be punished by a fine of not more than ten ($10.00) dollars and to act fully thereon.

Motion: To accept and adopt as amended.

Action: So voted by standing vote Yes: Yes: 222; No: 3. (A 2/3 vote being nececsary)

Article 108. To see if the Town will vote to amend the By-Laws as follows: Under Article VI, Selectmen, Section 1, by striking out the words "Fifty dollars" where they occur in said section and by substituting therefor the words "five hundred dollars" so that Section 1 will read, "Section 1. The Selectmen shall have full authority as agents of the Town, acting upon advice of the Town Counsel, to settle any claims or suits against the Town which in their judgment cannot be successfully defended, when the sum to be paid does not exceed five hundred dollars. Any settlement requiring the payment of a sum greater than five hundred dollars, except as authorized by law, shall be made only when authorized by the voters at a town meeting."

Motion: To accept and adopt.

Action: So voted unanimously.

RESOLUTIONS ACCEPTED AT TOWN MEETING
1966

1st. Whereas Article 51 does not spell out the basis of need, be it therefore: RESOLVED, That under Article 51, the Board of Water Commissioners, shall use adequate fire protection as the basis of determination of materials needed.

Daniel B. Thompson

2nd. Providing Article 51 is turned down for any reason by the Attorney General be it resolved that the Planning Board within 30 days amend their sub-dividers to install at

his own cost necessary water pipes, hydrants, etc. sufficient to provide water for the proposed house lots, said pipes and hydrants to be installed in accordance with the standards and specifications established by the Board of Water Commissioners.

Don Griffin

3rd. To assess the sense of this meeting in regards to the property on the Town owned land at Wychemere Harbor, owned by K. B. Kittredge, be it hereby Resolved, that the Selectmen be requested to take such steps as are legally appropriate to have the structure removed.

Samuel J. Arsenault

4th. It is the expression of this meeting that the Selectmen be requested to call a Special Town Meeting for the purpose of purchasing, if and when it becomes available, or to take by eminent domain that part of the right of way of the New York, New Haven and Hartford Railroad located within the limits of the Town of Harwich, not already voted to be purchased or taken.

Board of Selectmen

5th. Be it resolved that the money voted in the Recreation budget for the teener baseball team hereafter restrict the players to residents of the Town of Harwich.

Don Griffin

6th. **Resolution with Preamble.**

Whereas, the continued operation of the present dump is economically unsound; and

Whereas, its future usefulness is limited; and

Whereas, it has been made possible by the accepting and adopting of Article 125, be it therefore

Resolved, That the Board of Health and the Board of Selectmen shall take steps forthwith to expedite the preparation of disposal as facilities as contemplated, under Article 125, including a pit for the disposal of cesspool pumpings, so that the present practice of disposal on private property, zoned Residential and Agricultural, may be discontinued.

Daniel B. Thompson

7th. Be it resolved, that the Finance Committee be commended for their exceptionally diligent, and successful efforts, in behalf of the inhabitants of the Town of Harwich.

Robert Ruggles

TOWN CLERK'S REPORT

Recount for the Office of Park Commissioner

A petition, asking for a recount in the office of Park Commissioner for the year of 1966, (ONE YEAR TERM), was received in the office of Town Clerk and signed by the Petitioner, Allin P. Thompson and nine other registered voters of the Town of Harwich.

This petition, was turned over to the Board of Registrars and was duly checked, and the signers were certified as being registered voters of the Town of Harwich.

A recount of voters, for this office, was held on Saturday, March 19, 1966, in the Town Clerk's office on Main Street, Harwich Center at 10 A.M. This was in accordance with Chapter 54, Section 134, of the General Laws. Both candidates were informed by registered mail, as of the time, place and Laws governing this act. They also were informed that they were entitled to bring Counsel.

After the recount ended, the following results was announced:

ALLIN P. THOMPSON, JR.	840 Votes
BRENTON I. WIXON	848 Votes
BLANKS	204
Total	1,892

Mr. Brenton I. Wixon was declared the winner.

Action: So voted by a standing vote: Yes: 264; No: 1.

Article 12. To see if the Town will vote to transfer from available funds the sum of seven hundred dollars ($700.00) to the salary account of the Tree Warden so that with the present money in the budget, the salary would be one hundred ($100.00) per month and to act fully thereon.

Motion: To indefinitely postpone.

Action: So voted.

Article 13. To see if the Town will vote to transfer from available funds the sum of one thousand dollars ($1,000.00) for the Tree Warden's use in fertilizing, trimming, spraying, and caring for the 700 young shade trees set out by the Town, and to remove dead trees and dead limbs from over the Town roads and to act fully thereon.

Motion: To accept and adopt, and that the sum of $1,000.00 be transferred from surplus revenue for this purpose.

Action: So voted.

Article 14. To see if the Town will vote to raise and appropriate or take from available funds the sum of one thousand dollars ($1,000.00) to be spent under the direction of the Selectmen for recreation and amusement in the form of baseball; said money to be used for the operation of the Harwich Athletic Association Baseball Team provided the Association raises a like amount for the same purpose, and to act fully thereon.

Motion: To accept and adopt and that the sum of $1,000.00 be transferred from surplus revenue for this purpose.

Action: So voted.

Article 15. To see if the Town will vote to amend the Personnel By-Law as amended by Article #6 of the 1966 Annual Town Warrant by:

To see if the Town will authorize the Board of Water Commissioners to enter into negotiations with the Administrator of the Department of Housing and Urban Development to apply for Federal Funds and that the Board of Water Commissioners be authorized to expend same for surveys, plans, and reports, with estimates of cost, of additions to the existing water system, in all its various phases with the understanding that the Town will reimburse the Federal Government for that part of the cost of surveys, plans and reports allocated to a particular water project, if, and when, the particular water project is subsequently voted by the Town, said survey to be made by an Engineer, approved by Administrator, and that the Board of Water Commissioners authorize the Treasurer with the approval of the Board of Selectmen to accept a planning advance from the United States Government under the terms of Public Law 560, as amended, for the purpose of making said survey for the Town of Harwich, or take any action relating thereto.

Motion: To accept and adopt.

Action: So voted.

Article 17. To see if the Town will vote to rescind the action taken by the Town on Article 48 of the 1964 Town Warrant considered at the regular 1964 Town Meeting and refer the proposal set forth in said Article to the Planning Board for further study and to act fully thereon.

Motion: To indefinitely postpone.

Action: So voted.

Article 18. To see if the Town will vote to authorize the Selectmen to sell from time to time any portion of the Old Colony Railroad right of way which may be purchased by the Town in accordance with Article 48 of the 1964 Town Warrant and/or any future Town Warrant Article concerning the purchase of said Railroad right of way by the Town;

such sale or sales of portions of said Railroad right of way, title to which may rest in the Town, shall be made to any property owner having title to land abutting said Railroad right of way, the portion of said right of way to be deeded by the Selectmen to said abuttor being limited to thatland within the boundaries of said abuttor's land as extended across said right of way to the center line thereof and the consideration to be paid the Town for such portion by said abuttor shall be proportional to the total cost of the entire purchase by the Town from Old Colony Railroad, and to act fully thereon.

Motion: To indefinitely postpone.

Action: So voted.

A Special Town Meeting, held on April 21, 1966, in the new Junior-Senior High School, by Moderator Alan T. Hunt, at 7:30 P.M., as directed by the Town Warrant, Town Clerk, Leslie V. Nickerson, then proceeded to read the warrant and then action was taken upon Article #1.

As Article #1 was by secret ballot, the Board of Registrars was present and the Yes or No ballot was distributed by Town Clerk, Leslie V. Nickerson and Asst. Town Clerk Mervyn A. Hall. After the voting was over and all voters duly checked by the Board of Registrars, Mr. Nickerson, and Mr. Hall with the Moderator Mr. Hunt started the count, and then after the votes were counted Mr. Hunt announced the results.

After all articles of the Warrant had been acted upon by the voters present, the Town Meeting was declared closed at 10:27 P.M.

LESLIE V. NICKERSON
Town Clerk

One Representative in General Court,
for this Second Representative District
District Attorney, for this Southern District
Register of Probate and Insolvency, for Barnstable County
County Commissioner (1), for Barnstable County
County Treasurer, for Barnstable County

To vote on the following questions:

QUESTION NO. 1—Proposed Amendment to the Constitution—

Do you approve of the adoption of an amendment to the Constitution summarized below which was approved by the General Court in a joint session of the two branches held June 11, 1963, received 228 votes in the affirmative and 29 in the negative, and in a joint session of the two branches held May 5, 1965, received 225 votes in the affirmative and 24 in the negative? SUMMARY—The proposed amendment provides that at state elections candidates for Governor and Lieutenant Governor shall be grouped on the official ballot according to the party that they represent and that it shall not be possible to vote for Governor and Lieutenant Governor except as a partisan group.

QUESTION NO. 2—Proposed Amendment to the Constitution—

Do you approve of the adoption of an amendment to the Constitution summarized below which was approved by the General Court in a joint session of the two branches held July 16, 1963, received 169 votes in the affirmative and 100 in the negative, and in a joint session of the two branches held May 5, 1965, received 200 votes in the affirmative and 61 in the negative? SUMMARY—The proposed amendment provides that the Governor, for the purpose of making certain structural changes in the executive department, may from time to time prepare reorganization plans to be presented to the General Court. If the General Court fails to disapprove a reorganization plan within sixty days of its presentation and has not prorogued by the end of such sixty days, the plan at that time shall have the force of law.

QUESTION NO. 3—Proposed Amendment to the Constitution—

Do you approve of the adoption of an amendment to the Constitution summarized below which was approved by the General Court in a joint session of the two branches held June 11, 1963, received 232 votes in the affirmative and 18 in the negative, and in a joint session of the two branches held May 19, 1965, received 159 votes in the affirmative and 91 in the negative? SUMMARY—The proposed amendment authorizes the Commonwealth and the cities and towns therein to provide for municipal industrial development in such manner as the General Court may determine.

QUESTION NO. 4—Proposed Amendment to the Constitution—

Do you approve of the adoption of an amendment to the Constitution summarized below which was approved by the General Court in a joint session of the two branches held July 16, 1963, received 208 votes in the affirmative and 43 in the negative, and in a joint session of the two branches held May 19, 1965, received 219 votes in the affirmative and 39 in the negative? SUMMARY—The proposed amendment confers considerable authority upon cities and towns with respect to the conduct of municipal government, including the authority to adopt, repeal and amend city and town charters and, in accordance therewith, local ordinances and by-laws. The General Court retains general power to act in relation to cities and towns and classes thereof and, in some circumstances, to enact special laws regarding a particular municipality, including laws for its incorporation, dissolution, or merger. Cities and towns are not empowered to act with re-

spect to general elections, taxation, pledges of credit, dispositions of park land, general civil relationships, the punishment of felonies, or the imposition of imprisonment except as the General Court may lawfully confer such powers upon them.

QUESTION NO. 5—Law Submitted Upon Referendum After Passage—

Do you approve of a law summarized below, which was approved in the House of Representatives by a vote of 118 in the affirmative and 102 in the negative and was approved in the Senate by a vote of 21 in the affirmative and 16 in the negative? SUMMARY—The Act imposes a temporary tax upon all retail sales of tangible personal property at the rate of three per cent of the selling price. Sales of certain items are exempted from the tax, including but not limited to sales of food products for human use, articles of clothing, prescription medicines, agricultural machinery, and certain publications. The statute contains specific provisions relating to the registration of vendors, the filing of returns and the payment of the amounts collected by such vendors. Vendors may apply to the State Tax Commission for abatements of the amounts owed where they believe such amounts to be excessive, and decisions of the Commission on such applications may be reviewed by the Appellate Tax Board. The Commissioner of Corporations and Taxation shall have the usual powers and remedies provided for tax collection for the collection of the taxes imposed by this section. The State Tax Commission shall issue regulations necessary for proper administration and enforcement of the section.

The Act further imposes a temporary excise upon the storage, use or other consumption in Massachusetts of tangible personal property at the rate of three per cent of the sales price of such property. Sales upon which the retail sales tax described above has been imposed, or which are exempt from the retail sales tax, shall be exempt from the use tax. Sales upon which a tax has been paid in another jurisdiction shall also be exempt. Assessment, abatement and collection of the use tax shall be governed by the provisions which relate to the tax upon retail sales. The tax upon retail sales and the excise upon storage, use or other consumption shall be effective during the period from April 1, 1966 to December 31, 1967.

Each qualified taxpayer shall be entitled to a credit of four dollars for himself, four dollars for his spouse and eight dollars for each qualified dependent, but such credit shall not be allowed if the taxable income of such individual and his

spouse exceeds five thousand dollars for the year. In addition to the taxes described above the Act provides for new excises upon certain banks; new taxes upon the income of certain corporations; new taxes upon cigarettes; a room occupancy excise upon rent paid for the use of hotel rooms and other lodging places; and excises upon sales of certain alcoholic beverages.

The Act creates the Local Aid Fund for the purpose of providing educational assistance, and authorizes the periodic distribution of amounts from such Fund to the cities and towns. In addition, the Act contains a variety of provisions relating to the program of State aid to public schools, and to its administration.

QUESTION NO. 6—

Do you approve of an act passed by the General Court in the year nineteen hundred and sixty-six, entitled "An Act imposing a temporary tax on retail sales, and a temporary excise upon the storage, use or other consumption, of certain tangible personal property, revising and imposing certain other taxes and excises, establishing the Local Aid Fund, and providing for the distribution of funds therefrom to cities and towns?"

QUESTION NO. 7—

A. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?

Report of the School Committee

To the Citizens of the Town of Harwich:

Your School Committee feels that 1966 has been a year of progress and growth in the Harwich schools. Major changes are taking place continually in the field of education and Harwich schools reflect these changes in the many steps which have been taken to keep our schools at a high level of progress. At the same time we strive to maintain always the fundamental standards which will assure our children of the best possible education.

Harwich has taken advantage of some of the federal programs which are available and more participation is planned for the future. The report of the Superintendent covers this area more fully. Mr. Morgan's report also includes details concerning maintenance and care of our buildings and grounds such as the painting, interior and exterior, of the elementary school addition.

We are proud of the excellent staff now serving in the Harwich schools and hope to be able to keep our standards high as our school system continues to grow. Next September it will be necessary to add one social studies teacher to the high school, a third and a fourth grade teacher to the elementary school and a kindergarten teacher for one session, or half a day. The Committee has voted to provide total transportation for kindergarten children beginning in September 1967. This should make it possible for every kindergarten age child to attend.

These additions account for some of the ten per cent increase in the school budget submitted for 1967. Salaries, of course, represent a major part of the increase. Your School Committee, in accordance with Massachusetts law, met with the professional negotiations committee from the Harwich Teachers' Association. Both committees emerged from these

sessions at their conclusion with a sense of having attained a necessary goal in a sensible and amicable manner. The salary schedule was agreed upon to the satisfaction of both committees. The continued increase in the legal State minimum for teachers' salaries dictates an increase to start with, plus the School Committee's wish to offer a salary schedule which will attract good, reliable teachers to Harwich.

The support of the townspeople is appreciated and of vital necessity to the School Committee in its efforts to provide the best possible education for the children of the Town of Harwich.

MRS. FREDERICK W. CROWELL, JR.
Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Nineteen hundred sixty-six

During the past five years growth in the Harwich Schools has been surprisingly fast in spite of unusual losses.

The drop in the birth rate and the transfer of approximately sixty elementary pupils to the Holy Trinity School has been offset by a steady stream of new residents of school age.

The following chart shows an increase in grades seven through twelve from 330 to 401 — a growth of 21.5 per cent in five years. Fortunately there is space in the Junior-Senior High School for some years to come.

Year	Grades K-6	Grades 7-8	Grades 9-12	Total
Oct. 1, 1961	547	155	180	882
Oct. 1, 1962	591	144	196	931
Oct. 1, 1963	599	142	222	963
Oct. 1, 1964	642	162	233	1037
Oct. 1, 1965	587*	159	240	986*
Oct. 1, 1966	594	157	244	995 #

*Fifty-eight pupils in grades one through four transferred out.

#Seventy-four Harwich pupils in Holy Trinity School 1966-1967.

Separation of Music Instruction — Union 16

In September, Nineteen hundred sixty-six, Music supervision in Chatham and Harwich was separated. Mrs. McKenney (Vocal Music) and Mr. Piccolo (Instrumental Music) were assigned to Harwich while Mr. Tileston (Vocal Music) and Mr. Griffiths' successor (Mr. Hayes — Instrumental Music) are wholly in Chatham. The only remaining joint employees are the Superintendent, his office staff, the speech therapist, and the school adjustment counsellor.

Remedial Summer School — Elementary

During the summer of 1966 remedial classes were organized by Mr. John E. Ferreira and conducted by him and four assistants. There were eighty-one registrants in reading and sixty-one in mathematics. However, thirty-four of these enrolled in both subjects. For the first time a few non-resident taxpayers children were accepted. The course continued for six weeks. Large gains were recorded for most pupils.

Federal Programs

The appearance of the Federal Government on an increasingly large scale from 1958 on has brought about important changes in the local school scene. During 1966 Harwich Schools have participated in the following programs:

1. Public Law 864 (The National Defense Act of 1958), Title III, $1605 for elementary school reading equipment. A 50-50 matching grant.

2. Public Law 864, Title V, $600 for guidance and counselling, a 100 per cent grant.

3. Public Law 88-210 (The Vocational Act of 1963.) $504 for high school business educational equipment. A 100 per cent grant.

4. Public Law 89-10 (The Elementary and Secondary Act of 1965), Title I.

   a) $4150 for the "Evaluation and Remediation of Disadvantaged Pupils". Actually an outright grant. Approximately thirty pupils were aided by this program well-planned and executed by Mr. John Filler.

   b) $5635 for "Developmental and Corrective Reading". Twenty pupils took part in these classes. Equipment in the amount of $2000 and library books costing $1000 were purchased through a 100 per cent grant. Salaries were also paid. This program was planned and ably administered by Mrs. Jane Alcock. A more detailed report will be found later in this report under "Developmental and Remedial Reading".

It is planned to continue with some of these and other programs in 1967. We hope to receive a large grant for library books under Title II, P.L. 89-10. We also hope to participate in a high school Job Corps program under the Economic Opportunity Act of 1964.

We badly need help on a part time basis, to do research, plan, file applications, administer and follow up the various programs. Neither teachers, principals nor this office have time to care for the almost limitless research, planning and red-tape involved.

The Collective Bargaining Act (Chapter 763 of the Acts of 1965)

The Collective Bargaining Act passed by the Legislature in 1965 guarantees municipal employees ". . . The right to bargain collectively through representatives of their own choosing on questions of wages, hours and other conditions of employment . . .".

This bill requires School Committees to negotiate with employees in regard to wages, hours, and working conditions. In Harwich several meetings have been held with the Committee on Collective Bargaining representing the Harwich Teachers' Association. To date agreement has been reached in regard to a revision of the salary schedule. Among several changes, two stand out:

1. Provision for Sabbatical leaves.
2. A new basic pay schedule.
   a) Bachelor's degree 5400-8100, 10 steps of $300 each.
   b) Master's degree 5700-8700, 11 steps of $300 each.
   c) Master's plus 30 hrs. 5900-9200, 12 steps of $300 each.

After New Year's, meetings will be resumed to discuss a contract and grievance agreement, required by law.

I am looking forward to 1967 as a year in which we hope to make steady, continued improvement in the education of Harwich children.

JESSE J. MORGAN,
Superintendent of Schools

REPORT OF THE
JUNIOR-SENIOR HIGH SCHOOL PRINCIPAL

School Schedule

In September, students and teachers returned and quickly adjusted to two major changes. The hours for the school day are from 8:00 A.M. to 2:30 P.M. A thirty minute Activity Period precedes seven forty-four minute periods each day. Classes meet at the same time every day. Most major subjects, therefore, meet five times a week. Classes in Home Economics, Industrial Arts, Chemistry and Physics meet between eight and ten periods weekly. Double periods for laboratory purposes are scheduled for these subjects.

Open House

All of us are genuinely pleased by the excellent response of the townspeople who visited the school on two occasions. Last May many of you took advantage of the opportunity to browse through student exhibits and to observe the young people perform in the auditorium. Following the issuance of report cards in November, all parents/guardians were given an opportunity to come to school to confer with homeroom and classroom teachers. Ninety-one percent of the sched-

uled conferences were kept by parents of junior high school students and eighty-two percent of the appointments were kept in the high school. Even more gratifying is that 323 additional conferences in Grades 7-12 were arranged between parents and specific classroom teachers. Parents and teachers enthusiastically endorse these planned fifteen-minute private conferences.

Professional Meetings

To attempt to keep aware of the important and ever-changing educational ideas and practices, the Principal attends annual meetings conducted by the Massachusetts Secondary School Principals' Association and the New England Secondary School Principals' Association. Monthly meetings of the Cape Cod Secondary School Principals' Association and the Cape and Vineyard Principals' Association are also attended.

Evaluation

Every ten years, each secondary school, in order to remain accredited by the New England Association of Colleges and Secondary Schools, must be evaluated by a visiting committee of educators. Our school will be in January. The results of the evaluation will not be known until later next year (1967). The faculty, under the capable supervision and direction of Mr. Harold Drew, has completed the school's self-evaluation.

Conclusion

In closing, please remember that all members of the school staff wish to serve you and your young people as much and as well as possible. Therefore, do not hesitate to ask us to arrange for you to visit your school, the faculty and the students.

KENNETH G. ABBOTT

REPORT OF PRINCIPAL OF ELEMENTARY SCHOOLS

Growth is the word at the elementary schools in Harwich.

Growth in numbers of children, growth in amounts of materials, growth in items of equipment, growth in the curriculum, growth in federally supported programs, and last and most important of all, growth in knowledge.

One almost begins to wonder where all these children are coming from. Almost sixty children who would have been

enrolled in public school are now enrolled at the Holy Trinity School. Yet the enrollment of the elementary school and the intermediate school combined is, as of this writing, 608 pupils.

Modern educational technology is increasing at a very rapid rate. Many new technological advances in educational programming and materials are now commercially available. The rapid rise in the stock market quotations of educationally based companies is indicative of the wholesale acceptance of these materials in the schools nationwide.

Some of these new areas include programmed instruction, individualized reading kits, new study skills, and similar materials. Many of these new materials have been incorporated into the curriculum at the elementary and intermediate schools.

We are now in our second year of the implementation of our new curriculum. Of course, with the rapid changes in education today, a curriculum is outdated the moment it is published. The first two years will be a trial period then minor revisions will be instituted so that we will have a fine working curriculum.

Each year our participation in federally supported educational programs is increasing. During the last school year our schools operated programs under Title III National Defense Educational Act, and under Title I and II of the Elementary and Secondary School Education Act. I refer you to the reports of the Directors of these programs for details.

It is apparent to anyone who has worked in the planning of these programs, as I have, that large demands in time in writing and completing the scores of pages of applications are necessarily being made of the program directors and the school administrators.

The school systems which have been able to take full advantage of federal money are those which have been able to hire full time coordinators of federal programs and funds. It is apparently a case of the "haves" receiving and the "have nots" taking what is left over.

Those of us who work in public education in Harwich work a full time job with ever increasing demands upon our time. If we are to take full advantage of these programs, we must be prepared to spend money to get money.

School officials in towns having federal coordinators report that the salaries of these people are returned to the towns manyfold.

The personnel of the Harwich Schools is first and foremost interested in the welfare of the children not only academically but also in a myriad of other ways. The schools continue to assume those responsibilities gradually being abdicated by the home. However important these may be our major aim is, and must continue to be, the progressive academic growth of the children. It is to this goal that all good teachers aspire.

New materials and equipment come upon the scene bolstered by programs of federal support but it is the teacher who must carry the load and interpret all this to the not always receptive mind.

I am appreciative of the cooperation and understanding of any and all those who have interest in our schools.

DONALD C. NESMITH

EXCERPT FROM REPORT OF DIRECTOR OF GUIDANCE

Status of Class of 1965

Sixteen students enrolled in four-year colleges.

Fifteen still in attendance and in several cases have completed an excellent freshman record.

The figures for the class of '66 are as follows:

Fifty-four graduates — of this number, two were held back to complete the Senior year and are not included in these statistics.

Number of students attending a four-year school	19
Number of students attending business school	8
Number of students attending 3-year nursing school	2
Number of students attending hairdressing school	2
Number of students attending junior college	2
Number of students working full time	7
Number of students indicating marriage	1

An especially interesting note is that in the commercial department, eleven of the fourteen students plan to continue their education.

The figure for military service shows an increase this year, however, many of our boys are entering the service to take advantage of the many technical school opportunities offered to them.

FREDERICK DUNFORD

REPORT OF SECONDARY SCHOOL ART SUPERVISOR

In 1966, the Harwich Junior-Senior High School Art Department progressed in a satisfactory continuation of the program outlined in last year's report.

The areas covered were in drawing, design, painting, three dimensional work in clay, wood and stone, and crafts in glass, pottery, enamel, metal, batik and serigraphy. All practical applications were followed through.

There was much demand on our time from townspeople, and we sincerely tried to accomplish what we could whenever it fitted into our planned curriculum. In this area we did posters for the Garden Club Flower Show and also designed book plates for Brooks Free Library, and we are proud that a ninth grader, Mary Jane Silva, did the one to be reproduced and used in all the books in the library.

Our students also competed in a contest doing illustrations for a new edition of Grimm's Fairy Tales to be published next year by the Follett Publishing Company.

The Harwich Junior-Senior High School displayed work in the Women's Club Art Show in Harwich. We also displayed work at the Scholastic Art Awards Show at Boston University and twenty of our students were represented.

Our boys and girls made posters for the Humane Education Association competition in Massachusetts and were given nine awards. One of them was for exceptional work done by William Crowell of the seventh grade.

We sent one exhibition through Groton, Massachusetts, to be in an exhibit traveling through Europe and Asia. We've had very favorable comments sent to us about that. This exhibit was to foster good will and good relations between nations through the art of children.

In May, we had our first art show judged by three prominent, active art educators from Rhode Island and Lexington, Massachusetts.

This was successful and various civic organizations awarded prizes including Kiwanis, Twenty Links, Harwich Women's Club, Harwich Junior Women's Club, Harwich Police Association, Harwich Garden Club and Harwich Teachers' Association.

We were all delighted when the Kiwanis Club gave us one hundred dollars as a reward from the Public Speaking Contest between Chatham and Harwich High Schools. This

we used to purchase three new enameling kilns which are in constant use by our students and adult education students, as well.

This year, we were glad to visit art schools and were cordially received by Butera School of Art, Vesper George School of Practical Art, School of the Boston Museum of Fine Arts, Massachusetts College of Art, and Boston University College of Fine Arts. This trip was especially valuable since several of our students plan to make art a career.

In order to give the required number of art classes to the Junior High School students, there are only two periods a day available to High School students. This makes it impossible for many students who desire to take art to schedule classes. This situation is inadequate.

At present, we are working to obtain a federal grant in order to install a terminal program in artistic crafts to help those students with ability who cannot go on to further education. We hope we can report favorably on this next year.

This past year has been both educational and productive and I feel there is great hope for the future. It is appalling with so much to accomplish there are so few hours in which to do all of it.

It has been a sincere joy and honor for me to work with the truly interested boys and girls of Harwich and to associate with the dedicated faculty and administration, as well.

MARION H. ECKHARDT

REPORT OF ELEMENTARY ART SUPERVISOR

The art program in the Harwich Elementary and Intermediate Schools has continued to provide a wide variety of creative projects for our young children this past year.

The lengthened school day which started in September helped the children to complete their art work more leisurely has enabled art to be offered for longer periods. This has in the allotted time.

This past year to further improve the art facilities of the elementary art room additional storage shelves and cupboards were added.

Cultural enrichment is included in our art curriculum and the following activities were accomplished over the past year.

1. Art appriciation for grades five and six using ARTIST JR. and large colored reproductions of paintings.

2. Coordination of art projects with visual material in ARTIST JR., grades five and six.
3. Field trips to the Chrysler Museum including a guided tour for grade six.
4. Color movies of excellent quality for two art assemblies, grades four, five and six.

Our annual spring exhibition was most successful last June with over two hundred parents visiting for "An Evening of Art and Music". On display in theElementary School lobby and hall were murals, collages, posters, clay sculpture, ceramic glazed bowls, cut-paper designs, block-printed cards as well as drawings and paintings in various media.

Brooks Library exhibited third grade Christmas paintings over the holiday season and work from all the grades during the summer.

Two successful community projects were Conservation Posters sponsored by the Harwich Junior Woman's Club and Jester Program Covers for the Harwich Junior Theater.

BARBARA A. ELLIOTT

REPORT OF THE DIRECTOR OF INSTRUMENTAL MUSIC

I am pleased to report that we have a much improvevd schedule at the High School this year. Our rehearsals are quite short (twenty-eight minutes) but they occur at the beginning of the school day and with a minimum of conflict. This is much appreciated by me.

The past year has been the usual busy one with various concerts, festivals, school and civic functions in which our band and orchestra participated.

On the elementary level, we have a fine group of beginner and intermediate pupils who for the most part are doing very well. Mr. Nesmith and his staff are most cooperative and we have no scheduling problem there.

I would like to report that the first group of students in the "Little Fiddlers" program taught by Mrs. Edmunds has reached the seventh grade and are now in the orchestra. This is a sizeable group of string players who play exceptionally well for their age. This convinces me that the "Little Fiddlers" program is a very valuable one and every effort to reinstate this program should be made. Mrs. Edmunds has agreed to teach this class and I have asked for money to be budgeted for this purpose next year.

SALVATORE PICCOLO

REPORT OF VOCAL MUSIC SUPERVISOR

In the elementary and intermediate schools I feel that there is a fine understanding, and an excellent co-operation between teachers and supervisors, teachers and children and children and supervisor as concerns the music program. Learning progresses through the grades by the note reading of study songs and also in the rote songs. Songs are chosen to illustrate the rudimentary techniques studied.

Time in the Junior High School has been divided between singing and pursuing a course of study. The seventh grades are studying the instruments of the band and orchestra and the eighth grades are following the development of music in America and relating it to our country's growth. With provision of records, record player and recording machine it is hoped to integrate a listening program.

Despite too short a rehearsal period — only one half hour per week — the Girls' Glee Club has been highly successful and presented a concert assisted by several of Mr. Piccolo's instrumentalists. The chorus also meets once a week for only one half hour which I feel is not long enough. Both groups meet the first thing in the morning, however, which works out very satisfactorily.

IRIS McKENNEY

REPORT OF CORRECTIVE AND DEVELOPMENTAL READING SUPERVISOR

The special reading services of the Harwich Schools extends to an increasing number of students, Grades 2 through 12. Students are selected to participate on the basis of achievement, test scores, special tests of reading ability, and general class performance. At present there are 89 students from Grades 2 to 4, Elementary School, and 23 students from Grades 5 and 6, Intermediate School. These pupils are divided into eleven groups, meeting three times a week, with the periods varying from 20 to 45 minutes in length. In the Junior High School there are 70 students, divided into seven groups, meeting twice a week for 45 minute periods.

Scheduling changes this year have made more reading class time available to Junior High School students. This is valuable as the last opportunity for class instruction in reading improvement before the individual high school programs. In June the Iowa Silent Reading Tests were given to all of Grade 6. From these and other results the large number of Junior High pupils from all divisions were selected for a

special reading program, stressing independence in reading and reinforcing study skills for reading in the content areas.

The work of the reading program was expanded this summer by a Junior-Senior High School Reading Laboratory, funded by the Federal Government under the Elementary and Secondary Education Act of 1965. Facilities were improved by the addition of six individual listening stations and several pieces of excellent equipment. Over 350 library books and other materials were added. Two instructors made it possible to provide much individual assistance. Twenty students took advantage of this opportunity and elected to work in the laboratory three two-hour periods a week for the six-week course. Marked progress was observed. The equipment and materials are now being used by students in the reading program. If Federal funds are available again it is hoped that this program can be continued next summer.

JANE D. ALCOCK

REPORT OF SPEECH THERAPIST

Speech therapy programs are quite new to school systems of relatively small enrollments, though they have been in existence for many years in the larger, more urban areas. I do not work with every child in the school system, but concentrate my efforts on those who have any type of communication problem. Though there are many different types of communication problems in the general population, only four basic classifications are usually found in the public school: defects of articulation, abnormal voice quality, stuttering, and problems due to hearing loss.

Articulation refers to the manner in which we produce our consonant sounds. The majority of my cases distort, substitute, or omit consonant sounds, thus rendering their speech partially or totally unintelligible.

Voice problems are defects in the overall sound of the voice: abnormal pitch range, lack of expression and inflection, inability to speak loudly enough.

Though all speech problems tend to hinder the student in schoolwork and in interpersonal relationships, now and later on in life, I think the most handicapping of all is stuttering. This abnormal and very distracting way of communicating to others is usually caused by anxiety about the very act of speaking itself.

Hard of hearing students need auditory training (improving their ability to discriminate between similar sounds), and practice in lipreading.

By the end of the school year in June 1966 I had worked with a total of 53 students ranging from grades 1 through 12. This is on a part time basis, since my time is equally divided between Chatham and Harwich. So far this school year I have worked with a total of 21 students from grade two through grade eight.

My cases are selected from those students referred to me by their teachers and from the entire grades that I test individually. This school year all fourth graders and eighth graders were tested.

JAMES D. WILLISTON

REPORT OF SCHOOL PHYSICIAN

Complete physical examinations have been given all the boys and girls on the athletic teams. Cheer leaders were included in this program.

Diphtheria, tetanus and whooping cough boosters were given and, this year, shots for measles were added.

All first grade children were examined with parents in attendance.

General health of the children is good.

REPORT OF SUPERVISOR OF ATTENDANCE

The demand for working permits increased this year, 1966, by 29, a total of 128.

Truant cases were less, a total of 38.

Three cases were taken to court for truancy.

ARTHUR A. HOLMES

REPORT OF THE SCHOOL ADJUSTMENT COUNSELLOR

Description of services performed. These are listed in descending order of priority and involvement.

1. Intensive counselling for students

Intensive counselling is offered to children of the elementary and junior high schools whose maladjustments are exhibited as: poor academic achievement, abnormal or anti-social behavior, emtional distress or physiological symptoms and disabilities. Such children are referred by teachers, administrators, parents, and social agencies.

This counselling service consists of several general functions which include a developmental study, psychological testing, student interviews, parent and teacher conferences, and extra-scholastic treatment.

Seventy-seven students were engaged in intensive counselling and its associated services. Of these students, thirty-five are demonstrating satisfactory re-adjustments and are dismissed.

2. Guidance and short-term counselling for students

Guidance or short-term counselling is offered to children of the elementary schools whose difficulties stem from immediate circumstance and are not psychogenic—such problems as can be resolved by decision, encouragement, accommodation, etc. One hundred and twenty students were engaged in such counselling.

3. Interview with parents and family counselling

Parental interviews are conducted to appraise the child's specific academic and psychological needs and to devise corrective procedures. Family counselling is offered when the parent is unable to establish a therapeutic home environment for the child. One-hundred and eighty-nine conferences were conducted with parents of children engaged in intensive or guidance counselling.

4. Consultation with teachers and principals

Conferences with teachers and principals concerned the instruction and treatment of individual students referred for counselling or examination. Two-hundred and twenty-five such conferences were conducted.

5. Academic and psychological testing

Individual intelligence tests and projective tests of personality structure were administered to forty-eight children. Tests of specific aptitude and group intelligence tests were also given.

6. Referral and placement, and inter-agency coordination

Services not offered within the school are provided by referral to other agencies. Seventy-four such referrals were completed. (All totals include Chatham and Harwich).
